aero's quest

Aero's Quest is a challenging and addictive game. It can be frustrating at times but the desire to push forward to the next level always seems to be there. I really like the art and death animations. Overall a solid game that is good to play after a long day at work. I look forward to getting further into the game. Kanye Approved.. hard and is very big (more than 100 levels). It will take me quite a lot to finish it and when I will I can play it in speed-run mode.. Graphics: 6/10 Sound: 9/10 Game-play: 7/10 Controls: 7/10 Replayability: 8/10. Aero's Quest surprised me. I bought it on sale and I wasn't 100% sure since the graphics are not the best and few reviews were negative. I started to play it and after a while the game really drove me crazy (in a positive way), I just couldn't stop to play. And I keep on playing it. Very positive surprise this title.. This game is so cute! I like the style, the cuteness of the characters and then the splatter once you die. Aero's Quest is challenging, I don't know if it is because I'm not really skilly with plafomers or because the game is hard. I like the idea of many short levels, it keeps the pace very high.
